

WHAT PRICE JUSTICE ?

WHEN IS A FINAL WILL AND TESTAMENT FINAL ?

What is the "Voice of the People" 's background?

We were founded in 1998 when we realised that Federal, State and Territorial Governments were committing nugatory acts against our Commonwealth Constitution. In fact the aforementioned have, since 1998, also committed breaches of the Federal Crimes Act.

Our Lobby Group's supporters and membership numbers have surpassed more than 460,000 Australia-wide. Our investigators comprise former senior Law Enforcement Customs Officers in tandem with former senior Australian Federal and State Police Officers.

Our investigators have been compiling evidence for more than twelve years into cover-ups of fraudulent activities by Federal, State, Territorial Governments (Govts.) and Local Councils.

We have engaged one of the World's leading producers to transfer our documented and video evidence of political criminal cover-ups onto a DVD. We have organised to distribute copies of this DVD, free of charge, to thousands of non-political organisations.

Thousands of Australians, whose families and friends have become victims of our legal system under the Westminster system, believe our Commonwealth Constitution should be abolished and replaced with retrospective amendments to the Federal, State and Territorial Crimes Act to be introduced, including mandatory minimum sentences for those guilty of committing serious violent crimes.

This is the only way violent crimes, including sexual assaults, can be contained.

The Westminster system appears to be a financial protection racket to the benefit of legal Eagles, with very few exceptions amongst Australia's QCs, Barristers and Law Firms. We will highlight part of our concerns, which will appear on our website once our DVDs are distributed.

WHEN IS A FINAL WILL AND TESTAMENT FINAL?

Two elderly pensioner brothers unfortunately lost their brother to throat cancer in 2016. To make matters worse, their brother's daughter is challenging her father's Last Will and Testament in the Supreme Court. The brother's legal advice was, if litigation proceeds beyond mediation, even if the brothers were to win the case, their legal costs would be in the hundreds of thousands. WHO GAVE THE JUDICIARY THE GOD-GIVEN RIGHT TO ALTER A PERSON'S DYING WISHES? WHY MAKE A WILL? WHY WASTE MONEY?

It appears that the Westminster system does not protect our poor, such as our minimum paid workers, small business owners and our pensioners, even if they are in the right. We believe that a Last Will and Testament should be final, and this law should be made retrospective.

The story of N.S.W.'s biggest lowlife occurred during the middle of May 2017. A male, over a three year period, continually raped his daughter from the age of 11 to 14, and had a bit of success in the Court of Appeal. This poor girl had actually told family members when these vile acts began, aged 11, but was not believed. The assaults continued and, as time passed, she started to keep evidence of the assaults, including items she used to clean herself after the rapes. Those items contained her father's semen and DNA. In the District Court, he got 12 and a half years minimum, but the Court of Appeal reduced that sentence by two years, saying it was not in the worst case category. Not in the worst case category? This is the perfect example why A MINIMUM MANDATORY SENTENCE SHOULD BE INTRODUCED.

We will present countless cases where Australia's system of law in our courts favours the perpetrators to the detriment of their victims.

Our investigators will produce documented and video evidence that senior parliamentary Ministers and their relevant agencies were guilty of committing treason against our Defence Forces in Iraq.

On January 24, 2004 Foreign Affairs Correspondent in Canberra, Mark Forbes, filed the following report regarding the United States-Australia Free Trade Agreement.

Acting Prime Minister John Anderson has said it would be un-Australian to accept any free trade deal without sugar being included. "I cannot see how Australia can agree to a free trade agreement that did not include a fair and responsible approach to sugar," Mr. Anderson said.

Mr. Vaile said he could not give a watertight guarantee that negotiations would end in stalemate, but there was a better-than-even chance the agreement would be struck. "We've sought to do a comprehensive deal across all sectors including agriculture, including sugar, and we've said that sugar must be part of the deal and we're not conceding that," he said.

"If this deal is not good enough for the Australian economy, that is if we're being asked to pay too much for what we're getting in return, then we've always reserved the right to walk away from this and not do the deal."

One week later they signed the Free Trade Agreement with the United States without the inclusion of sugar.

It's now the year 2017, and we discover that Singapore company Wilmah has taken control of Australia's sugar industry, and have put the screws on our sugar cane growers, to their financial detriment.

It's amazing how our elected members to parliament and local councils, aided and abetted by our mainstream media, divert readers and viewers away from the truth. A perfect example is the demands for a referendum to recognise our indigenous people. This has been ongoing for decades.

Many of Australia's leading academics fail to realise that Indigenous People means a person's origin of birth, and has nothing to do with the colour of one's skin. I am caucasian in appearance, I was born in Australia, which makes me an Indigenous of Australia.

IT'S TIME TO WAKE UP AUSTRALIA!

WE MUST WORK HARD TO BECOME ONE AUSTRALIA, FOR ALL AUSTRALIANS

It is time for our Federal Government to stand up for their constituents. This can be done by abolishing their Administrative Appeals Tribunal and the Human Rights Commission.

A Turkish drug dealer Ahmet Candemir, who was convicted five times for possessing over commercial quantities of heroin, ice, ecstasy and cannabis, was allowed to remain in Australia after the Administrative Appeals Tribunal quashed a decision to deport him.

Boat people who lied won Australian visas by falsely claiming their lives were in danger if they returned to their home in Iran. The Immigration Minister Peter Dutton has attempted to kick six Iranian liars out of Australia, but unbelievably the Administrative Appeals Tribunal has blocked his bid, that they can all stay regardless of their lying to get into our country.

One of the fake refugees, who arrived in 2011 at the peak of the Gillard Government's boat people invasion, claimed he was in danger of execution in Iran, only to make three return trips to his homeland. The asylum liar even returned to Iran to get married under Islamic law, an event that was conducted by the Iranian authorities, of whom he said he was terrified. Minister Dutton tore up the man's visa in 2016, only for the aforementioned Tribunal to reinstate it, stating holidays in his home country did not mean he wasn't in fear of persecution in Iran.

If any of our visitors to our website can provide us with documented proof that they have been wrongly treated by legal representatives or/and the judiciary, you can email us on votpp@yahoo.com.au and address it - urgent attention Phil.

It is time for Australians to reclaim our country and restore it back to its original greatness, where Australia was politically controlled by the people for the people. We fair-dinkum Australians must take up the challenge against the left-wingers of the Coalition Party, the left-winger Australian Labor Party (ALP) and the Social Communist Party, the Greens. By doing this, true Australians can prevent our country descending into a third world country, and preventing our country being controlled by far-left-wing politicians.

Thus we must all unite to avert the aforementioned so that our children and grandchildren may have a better and brighter future.

Finally, we must expose the mainstream media, both print and electronic, who have been guilty of brainwashing Australians by failing to tell the Australian voters of Peter Costello, the Howard Liberal-Nationals' Treasurer's betrayal of us, the people, and more so our farmers.

Mr. Costello continued to hoard taxpayers' money in lieu of introducing much-needed infrastructure, for example he could have built dams to help carry farmers through the harshest droughts. This would have reduced the mental anguish of Australian farmers and

their families. From the sale of Telstra, the profits were placed in a Futures Fund to ensure those elected members of Federal Parliament, in both Houses, who were qualified, would always have a fund to pay their lifetime pension.

The print and electronic media often boast of how great a Treasurer Peter Costello was, instead of pointing out to their readers, listeners and viewers that, instead of investing our taxpayers' money on infrastructure, this was a Treasurer who, when his party lost the Federal Election, left a \$21 billion plus surplus for the incoming Labor Party's Kevin Rudd to use as a slush fund.

One final question, could the mainstream media point out to the Australian voters what infrastructure has been implemented under the Howard, Rudd, Gillard, Rudd, Abbott and Turnbull Governments? It appears the mainstream media are treating you and me as "brain-dead."

It's worth remembering, for all those academics, including Government bureaucrats who have University diplomas, that not one of them has a diploma for "Common Sense."

POLITICAL FORESIGHT

Back in 1944 U.S. congressman Samuel Pettingill warned that communism would help America spend itself INTO BANKRUPTCY and was striving to get Americans to become TOTALLY DEPENDANT on a Centralised Government.

In his speech Pettingill gave his fellow members of the U.S. House of Representatives the 12 points of the Socialist manifesto for the destruction of free government. See if this pattern he spoke of is familiar to the political white anting of Australia.

"The people must be made to feel their utter helplessness and their inability to solve their own problems. While in this state of mind, there is help up before them, a benign and all-wise to whom they must look for the cure of all of their ills."

The principle of local self-government must be wiped out, so that this leader of group in control can have all the political power readily at hand.

Constitutional guarantees must be swept aside. This is accomplished in part by ridiculing them as outmoded and an obstruction to progress.

Public faith in the legal profession and respect for the courts must be undermined.

The law making body must be intimidated and from time to time rebuked, so as to prevent the development of public confidence in it.

Economically, the people must be ground down by high taxes, which under one pretext or another they are called upon to pay. Thus they are brought to a common level and all income above a meagre living is taken from them. In this manner, economic independence is kept to a minimum.

Disarm the citizens so they cannot fight back.

A great public debt must be built up, so that the citizens can never escape its burden, making government the virtual receiver for the entire nation.

A general distrust of private business and industry must be kept alive so that the public may not begin to rely upon its own resources.

Government bureaus are to be set up, to control practically every phase of the citizen's life.

The education of the youth of the nation is taken under control, so that all may be inoculated at an early age, with a spirit of submission to the system.

To supplement and fortify all the foregoing, there is kept a steady stream of Government propaganda to extol all that bow and kneel to vilify those who dare to raise a voice of dissent.

Don't say it can't happen in Australia

*The signing of "Lima Declaration" in March, 1975.

*The introduction of the dual reciprocal taxation act for International corporations.

*The signing of GATS (Goods Agreement in Trades and Services) in Chile.

*The introduction of the U.S.F.T.A - USA/Australia - Free Trade Agreement which commenced January 1, 2005.

Legislation by parliament was unopposed by the Howard Liberal Government and Labor opposition

*The Sale of Australian owned Assets, without referendum.

*
