

SAY NO TO A FUTURE CASHLESS SOCIETY

A cashless society will destroy the economic future of children and grandchildren, not to mention you and me.

The most important question is, can we trust the banks and governments to be in control of our finances?

They would be in total control of how and what we spend our hard-earned money on.

In the 1980's, Australia Post had their postmen update the names of residents, in the addresses in which they delivered mail to.

Australia Post would then on sell this information to charitable organisations and major retailers.

The question is, do we trust the banks, retailer and governments to control our spending of our hard-earned income?

Every dollar we spend, the aforementioned organisations would have a record of every transaction.

This will add greater power to banks, retailers and governments to control the prices of our greatest needs. In other words, the goods that the majority of Australians purchase, would be liable to costly price rises in which the Australian consumer will have no say.

The cashless society introduction will erode the Democratic Rights of all Australians in which a change of mind will be irreversible.

Several learned scholars believe the man behind the push for a cashless society is none other than George Soros.

They also asked a question, "how many of Australia's politicians and bureaucrats are on George Soros' payroll?"

In addition, they believe the George Soros could be behind the release of the Corona Virus, in an endeavour to increase his global power for at least two reasons:

1. If the Corona Virus is unrestrained in the United States by November 2020, President Trump's position as leader could become untenable.
2. George Soros' plan for a cashless society using the excuse, that the handling of cash was the cause of the

Corona Virus pandemic. All the viruses Australia has endured, and finally cured has the handling of cash been used as an excuse for spreading the virus.

We must never forget the Australian men and women who fought and sacrificed their lives or spilt their blood, so that their fellow Australian's could live in a peaceful, Democratic country.

We beg you, for the sake of our children and grandchildren, to take time out to make your family, relations, your friends and their friends of dire circumstances facing us all.

Should you doubt the allegations we've made against George Soros, we want you to Google – voiceofthepeoplelobbygroup and scroll down our home page and click on to the word 'ENTER'. Then click onto: The Getup Organisation Exposed.

This will give you the lowlights of a very evil and vicious man, George Soros.
